6/30	June 30, 2009	09/05/19	Surveys of Enacted Curriculum: Analys

Participation is free to educators in West 40 System of Support schools. Space in these workshops is limited and available on a first-come, first-served basis.

To enroll at no charge, registrants must secure a signature on the West 40 registration form from the district school improvement coordinator.

***The RESPRO area of West40 has had a practice in the past to cover the cost of workshops for teachers and staff working in schools that have entered the System of Support because their respective school has not made AYP. At this time we will continue this practice until July 1, 2009. We anticipate that funding for RESPRO schools will continue for the 2009-2010 school year.**

However, until we are notified of the budget for next year we cannot commit for courses on or after July 1, 2009.
